HOOKED RUGS & FAMILY STORIES

MARIAN SYKES makes rugs that visually tell stories about her life and her family. Through rug hooking, she edits her designs and memories to produce rugs that are beautiful to see and pleasant to recall. From images of street festivals to family outings, Marian's rugs are visual distillations of storied events or often-remembered locations; and each rug carries her memories back to "happier times" when her children were young and needed her.
